

**Please remember that at Living Care,
you live in Community.**

**What you do and where you go
will impact the community as a whole.**

The Stay Home – Stay Healthy proclamation allows “essential” travel for things like groceries. However, for people in the high-risk age or health category for COVID-19 (which all residents at Living Care are), no travel is essential travel if what you need can be safely delivered to you. As such, we ask that you please not leave campus for anything that can be brought to you.

Please contact Resident Services for Assistance.

THE POWER OF SOCIAL DISTANCING
