July 21, 2020

Dear Residents,

The last week has felt a bit like a roller-coaster ride of ups and downs, but I'm thankful that I have some good news to share with you today. Last week we reported that 5 staff had tested positive for COVID. As such, we quickly closed a lot of things down on campus until we could confirm whether we had an outbreak starting on our campus or not. After these tests came back, the Department of Health directed all of our staff to be tested late last week. These original 5 positive tests all came back negative upon the retesting. We do have a small number of new staff positive tests in the Healthcare Center. However, as before, none of these staff have any symptoms or known exposures. These individuals will be retested to confirm the validity of these positive tests. Overall, we are feeling confident that we do NOT have an outbreak starting on campus.

As such, we are re-opening the Chatterbox tomorrow (Wednesday). We will on occasion have limited hours available for Chatterbox visits or in some cases no hours available depending on our staffing in the Resident Services office and our ability to facilitate the visits. For instance, the Chatterbox will not be available this Friday because we'll only have two people in the office that day.

The salons will reopen on Monday the 27th.
Chaplain's Devotionals will start again this Friday.

Thank you for your continued support and cooperation as we all continue to work so hard to keep our campus safe. We tend to err on the side of caution whenever there is any safety concern on campus. We are thankful for each and every day that we have the honor of serving you, and for each and every day that we are COVID free in our community.

Thank you,
Eva Lounsbury
Resident Services Director
