RETIREMENT APARTMENTS: LIVING COURT • LIVING VIEW • GABLE VIEW • VALLEY VIEW • SENIOR VIEW • COOK

Dec. 14, 2020

Dear Residents,

Another week has gone by with no new cases of COVID on our campus! We are tremendously thankful for this! As such, we are going to revert back to our previous visitors' guidelines in our Independent Apartments effective immediately and *hopefully* through the holiday season. I must urge all of you to continue to be very wise and careful about any interactions you have both on and off campus. It is likely that any time we have a case of COVID in the apartments we will shut things down again until we feel confident about whether it is an isolated incident or a potential outbreak.

These visitor guidelines are:

- 2 visitors per day may visit with you in your private apartment
- Guests must wear a mask at all times while on our property
- Guests may not linger in or use any public areas of our buildings, such as lobby's, libraries or laundry rooms.
- Essential wellness checks or medically necessary caregivers are also of course still allowed.

If you have family that you would like to visit with that may be a higher risk to you, perhaps due to their line of work, you may still schedule a visit utilizing our Chatterbox. We have heaters outside the Chatterbox now to help keep your visitors warm.

We have not yet determined when other services will start up again, such as in person dining, the grocery bus, Chaplain's devotionals or expanded courtesy car services. We will keep you updated as things change.

We are still offering the following services to help you limit your exposures off campus:

- Grocery pick-up at Wrays only. Orders turned in by noon Monday are picked up on Tuesday.
- Prescription pick-up. Kindly give us as much notice as possible for these pick-ups.
- Shipping services, via the Yakima Shipping Shop only.
- Courtesy car service for medically necessary appointments.

Sincerely,

Eva Lounsbury

Resident Services Director
